GOVERNOR JOHN'S NEWS & NOTES

September 2019

From District Governor John Chambers...

Issue #3 2019-20

The month of August was filled with official club visits. We had spectacular views of the Detroit River courtesy of the Gibraltar Fire Department aerial ladder truck to dining on a barge on the Detroit River just to name a few. Each club visit was filled with great enthusiasm for the Rotary spirit- "service above self". The boards and members were engaged in Rotary locally and internationally. I was amazed by the depth and number of club projects. Our district's commitment to serve humanity is unparalleled in my opinion. As a club president said in recommending a Rotarian for the Do the Right Thing recognition, "I think the individual in particular has done so much for our club and leadership in the individual's post- presidency that it is worthy of mention. It is a wonderful model of how a past president can simply slip back into the role Rotary servant, rather Rotary enshrinement, and we are grateful."

Literacy – The Big Picture

Submitted by Jeanne Knopf-DeRoche and Mary Jean Gallagher

We can still see the joy and amazement on the faces of the teachers and students in the Upper West Region of Ghana when members of the Vocational Training Team (VTT) gave them the reader “Hungry Hyena”. Why such a response? The book was in color, the children were able to learn to read it and it was a funny story with a moral the children could understand. Why such a response from the teachers? They had been attempting to teach reading with no books!

So, whether it’s our district’s most recent VTT’s to Ghana and Tanzania, the Guatemala Literacy Project or any of the many local projects supported by our clubs, we know children and adults are receiving an opportunity to receive a better quality education because of our efforts. We are supporting their “right” to an education.

Since September is Literacy month, lets step back and look at the big picture of literacy. We know that increased education leads to better jobs, and an increase in income and better quality of life. Literacy actually is a powerful ladder out of poverty in both developing and developed countries. We intuitively know that is true in places like Ghana and Tanzania. But did you know that research in North America identifies low literacy skill as one of the top two reasons young people leave school before graduating?

Literacy skills are also fundamental to personal empowerment, informed decision-making, and involvement in local and global community. Personal

empowerment leads to better health decisions and increased life-expectancy.

These skills also increase political awareness. Educated citizens are more likely to vote and voice their opinion. Literate women in developing countries report feeling more confident to participate in community meetings. And women who are literate read to their children, building a happy cycle of increasing literacy in the village.

Leaders in the Upper West Region of Ghana, where our district has built multiple schools, view literacy (education) as the stabilizing factor for their country that is surrounded by unrest.

So, as our clubs support literacy projects, from Little Free Libraries to sending teams of professional teachers to Africa, consider that we are not only improving the lives of individuals but also assisting in improving health, building stronger economies and stabilizing nations, perhaps even our own.

Mary Jean Gallagher & Jeanne Knopf-DeRoche

Reminder to all clubs: your District 6400 and Rotary International dues were due July 1; please make sure they have both been paid.

Rotary Dues

Global Scholar Grant

Melanie's first Rotary meeting in Rome

“Through the generous funding of Rotary District 6400 and Rotary International, and in partnership with Roma Ovest, I was awarded the Economic and Community Development Global Scholar Grant, valued at \$30,000.00, with \$15,000.00 from the District and the matching \$30,000.00 from The Rotary Foundation. This grant funded a 17-month graduate degree program in Sustainable Cultural Heritage at the American University in Rome. This unique program allowed me to intern, research and practice sustainable methods of delivering cultural heritage which remained inclusive of the local community, helping to develop local economies—without exploitation.

Because of these experiences I have been given the opportunity to put my training into practice at a Cultural Institute in northern Quebec. My current role as the Collections Registrar at Aanischaaukamikw Cree Cultural Institute has provided me the opportunity to work with an organization that embraces the principles of heritage management guided by the local community. My role at Aanischaaukamikw has allowed me to be a part of an organization that is a beacon of community involvement and self-representation in heritage, paving the way forward as a model for institutions.” - Melanie Banks

Prakash Pandya awarded Global Grant Scholarship

Congratulations to the Rotary Club of Essex for securing a Global Grant Scholarship for Mr. Prakash Pandya. This month Prakash begins a master's program at the London School of Economics. His area of focus is “Economic and

Community Development”. This USD \$30,000 grant is funded in equal parts by our District Designated Funds and The Rotary Foundation and is available to us because of your contributions to The Rotary Foundation, showing once again that “The Success of the Rotary Foundation is the Foundation of Rotary Success”. Many thanks to grant applicant Kim Spirou (Essex), District Global Scholar Chair Colleen Mitchell (Windsor 1918), and Global Grants Chair Russ Jones (Plymouth).
